PROJECTS

Types of Non-voters Quiz [Source Code](#) | [View Live](#)

An interactive election-related quiz built for the creative studio 13milliseconds

- Developed a quiz using React that categorizes users into 'types of non-voters'
- Wrote logic to score and track possible quiz results throughout a user session
- Implemented a UI design from a wireframe using Sass and styled components

Think Tank [Source Code](#) | [App Hosted on Netlify](#)

A real-time chat application build with React and Firebase

- Implemented a Firebase Realtime Database to store and relate user, room, and message data objects
- Connected database to an interface allowing users to perform create, read and delete operations via the Firebase API

Pickipedia [Source Code](#) | [App Hosted on Heroku](#)

A Wikipedia-style app for chronicling live American roots music in NYC

- Built a full-stack MVC-style application allowing users to create a profile and perform CRUD operation on wikis
- Implemented different access rights and privileges for "basic" and "premium" user roles
- Wrote unit and integration tests with Jasmine

EMPLOYMENT HISTORY

Freelance Web Developer, Nov. 2019 – Present

Various Clients

- Léieren Learning Systems: Develop custom landing pages using HTML, CSS and JavaScript on the Cornerstone On Demand CMS
- 13milliseconds: Develop custom functionality and landing pages with React

Digital Communications Coordinator, Sept. 2015 - Present

Association for Computing Machinery, New York, NY

- Hand code and troubleshoot responsive, cross-client HTML emails for various member communications
- Build a set of internal user interfaces for ACM employees to interact with the redesigned ACM Digital Library using HTML, CSS and JavaScript
- Write social media, web, and email marketing content tailored to an audience of software engineers and computing researchers
- Doubled average monthly social follower growth, tripled monthly Google AdWords member acquisitions

Project Manager, Feb. 2012 - Sept. 2015

SIS International Research, New York, NY

- Managed multi-city qualitative and quantitative research projects through initial planning to client delivery; wrote and delivered final reports to clients
- Moderated focus groups and in-depth interviews for research projects in cities across the US
